October , 2003

[address]

Dear [name]:

In July, Microsoft announced some important changes to its equity compensation program by beginning to grant stock awards (i.e. restricted stock units) rather than employee stock options. At that time we also announced that we would begin recording equity compensation expense under SFAS 123 beginning in fiscal year 2004.

In the 2003 Proxy Statement, which was mailed on September 29, 2003, we are asking shareholders to approve amendments to the 2001 Stock Plan and the 1999 Stock Option Plan for Non-employee Directors that will allow the Company to continue implementing the important changes that we announced to our employee compensation plan in July and allow us to begin granting stock awards to our non-employee directors. Without shareholder approval, we will not be able to make future grants of stock awards to employees or non-employee directors as we have planned.

The proposed amendments would reduce the total number of shares that could be issued under the current stock plans and would allow the Company to use shares previously approved for stock option grants as stock awards, in keeping with our new compensation model.

We are looking forward to discussing our 2003 proxy proposals with you. Please find enclosed the following:

- A brief summary of the Proposal for Approval of Amendments to the 2001 Stock Plan
- A copy of the 2003 Proxy Statement
- A copy of the 2003 Annual Report (Form 10K)

We believe our new compensation plan is good for employees, good for shareholders, and good for the Company. The new plan will allow us to attract and retain top talent and will better align shareholder and employee interests by making employees shareholders. The new compensation plan is another important step in an ongoing evolution of Microsoft's business processes and strategy to position the Company for long-term growth and success. We hope you agree and will show your support by recommending a vote "for" the amendments set forth as Proposals 2 and 3 in the 2003 Proxy Statement.

I will be following up with a phone call to you within the next week to answer any questions that you may have. We would be happy to schedule time for our team to discuss with you the proposals and the important changes we have made to our equity compensation programs over the past few months. In the meantime, please feel free to contact me at (425) 705-5915 or [curtan@microsoft.com](mailto:curtan@microsoft.com) should you have any questions or concerns.

Sincerely,

Curt Anderson  
Sr. Director Investor Relations

Proposal for Approval of Amendment to  
2001 Stock Plan (Proxy Proposal #2)

Fact Sheet  
October 2003

Proposal for approval of amendment to  
2001 Stock Plan (Proxy Proposal #2)

- Amendment to the 2001 Stock Plan
  - Decrease the maximum number of shares issuable under the stock plan by 100 million shares
  - Remove limit on the number of stock awards issuable under the stock plan
  - Provide that options transferred to a third party, pursuant to an options transfer program, are permanently removed from the pool of shares available for issuance

**Approval of the amendment will allow Microsoft  
to continue to grant stock awards beyond fiscal  
year 2003.**

Permanent reduction in shares available for issuance

1) Proxy proposal #2 results in a 100 million unit permanent reduction of shares available for issuance units.

2) Shares within total pool made available for Stock Awards. #2 removes restrictions on the number of shares available for issuance as stock.

3) Under the terms of the Options Transfer Program, shares underlying the transferred stock options shall not be available under re-grant under the Stock Plan regardless of whether the transferred stock options are exercised or expire without exercise.

**Proxy proposal #2 could reduce total shares now available for issuance by 100 million shares to 766 million shares.**

**Proposed Option Transfer Program could reduce total shares available for issuance in the future by an approximate additional 624 million shares.\*\***

\* 1,058 million shares, noted on page 21 of the 2003 Proxy Statement, reduced by 192 million shares remaining available under the 2003 Employee Stock Purchase Plan.

\*\*Actualshare reduction depends on the participation rate in the proposed Option Transfer Program.
